

INSTITUTE OF DIRECTORS

COURSES FOR DIRECTORS 2007

The course covers the principles of corporate governance, introducing the role, duties and responsibilities of directors linked to the workings of the board, including the implications of working across jurisdictions, with a particular emphasis on Dutch and European issues.

This course is aimed at directors of all size of organisation and industry sector, including owner-managed companies or family businesses, newly appointed directors and those shortly to become directors.

This course will appeal particularly to those whose business interests cross borders, particularly in The Netherlands, Western Europe and the European Union. Members of the IoD will receive a significant reduction on the fees for this course.
