

## **SEMICON Europa Moves to Stuttgart in October 2007**

BRUSSELS, Belgium – 13 September 2006 – SEMI today announced that SEMICON Europa 2007, the premier annual microelectronics manufacturing exposition in Europe, will be held 9-11 October, 2007 at the Messe Stuttgart Exhibition Conference Center, in Stuttgart Germany. The new dates and location have been established with the support of SEMI members and SEMICON Europa stakeholders.

“Through extensive discussions with our membership and SEMICON Europa stakeholders, we came to agreement on the future change in location and date for the exhibition,” said Heinz Kundert, president of SEMI Europe. “By shifting the show to October, we are enabling our members and exhibitors to more efficiently develop their marketing strategies, and derive the greatest benefit from the global SEMICON exhibitions.”

The Messe Stuttgart, which is scheduled for completion in early 2007, is a state-of-the-art facility designed to be one of the world’s most modern exhibition centers. Stuttgart offers easy access by air, road and rail, and the Messe Stuttgart is within walking distance of the airport. Local hotel capacity is sufficient for accommodating SEMICON Europa exhibitors and visitors, and additional hotel space is under construction.

SEMI is a global industry association serving companies that provide equipment, materials and services used to manufacture semiconductors, displays, nano-scaled structures, micro-electromechanical systems (MEMS) and related technologies. SEMI maintains offices in Austin, Beijing, Brussels, Hsinchu, Moscow, San Jose (California), Seoul, Shanghai, Singapore, Tokyo and Washington, D.C.
